

Lab 3 Presentation Specification

1. Task 1:

- Read the Aqualush example given in the textbook.
- List the things (e.g. models, textual description) you want to do in the high level design.

2. Task 2:

- Review the available architectural styles given in the lectures and the supplementary reading material I emailed you.
- Find out if you can use any architectural styles in the Aqualush high level design.
